FINDLAY PARK AMERICAN FUND

a sub-fund of Findlay Park Funds p.l.c.

Sterling Hedged Shares ISIN: IE00B00J0F11

Management Company: Bridge Fund Management Limited

Investment Manager: Findlay Park Partners LLP

Objectives and Investment Policy

The Findlay Park American Fund (the “Fund”) is a sub-fund of Findlay Park Funds p.l.c. (the “Company”). The Fund aims to generate capital growth over the long-term and seeks to achieve a return, over the long-term, above the return of the Russell 1000 Net 30% Total Return Index (the “Index”).

The Fund principally invests in the shares of companies that conduct their business primarily in the US, Canada and Latin America or which derive a significant proportion of their revenue or profits from those regions.

The Index has been chosen as the comparator benchmark because it includes a broad universe of US equities which is representative of the US equity market.

The Fund is actively managed using a disciplined stock selection approach that is based on the Investment Manager’s investment philosophy. The Investment Manager’s investment decisions are not influenced by the constituents of the Index and, as a result, the composition of the Fund and its performance is likely to differ significantly from that of the Index.

Although the intention of the Fund is to invest predominantly in shares of companies, it may also invest in cash/money market investments and debt instruments (such as bonds).

Investors can buy and sell shares or switch share classes on demand daily (but not on weekends, bank holidays in London or on days when the New York Stock Exchange is closed).

The Fund’s portfolio has a base currency of US Dollars while the Sterling Hedged share class is priced in Pounds Sterling. The Fund uses currency hedging (a technique of buying or selling currencies) to minimise the effect of the US Dollar / Pounds Sterling exchange rate and aims to give investors a return similar to that of the US Dollar share class.

If the Directors consider, acting in their sole discretion, that the net income after expenses available in the Fund is sufficient in order to warrant a distribution, then the Directors current intention is that such net income will, unless an investor specifically requests a cash payment, be distributed by way of reinvestment in shares for the benefit of the investor. It is not anticipated that this Fund will generate significant net income.

If the Directors decide that no distribution should be paid then any undistributed amounts will be included in the Net Asset Value of the Fund.

Investment in the Fund may be suitable for investors with a long-term investment horizon.

For full investment objectives and policy details, please refer to the Investment Objectives and Investment Policy in the Fund’s Supplement to the Prospectus, which are available at www.findlaypark.com.

Risk and Reward Profile

The risk and reward indicator is calculated on the basis of the Fund’s volatility (the movement in its value) over the prior 5 years. The risk and reward indicator is based on historical data and may not be a reliable indication for the future. The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that a share class is risk free.

The Fund does not provide any guarantee or protection of capital to investors.

The Fund is in category 5, reflecting the range and frequency of price movements of the underlying investments in which the Fund invests.

In addition to those captured by the risk and reward indicator, the value of your investment in the Fund may be affected by the following risks, which could potentially occur concurrently:

- The Fund's currency hedging methodology set out above seeks to minimise, but cannot eliminate, the effect of movements in exchange rates on the performance of the Sterling Hedged share class. This hedging also limits the positive impact on this share class of favourable movements in exchange rates.
- The assets of the Fund are exposed to the credit risk or bankruptcy of counterparties, dealers, exchanges and those that act on behalf of the Fund or hold assets on behalf of the Fund.
- The assets of the Fund may be in currencies other than US Dollars. The impact of this is that as the value of a currency rises or falls it can have a positive or negative impact on the value of the Fund’s investments.
- A change to the Fund’s tax status or the applicable tax legislation in the markets within which the Fund invests could affect the value of an investor’s shares.
- The Fund may invest a portion of the assets in emerging markets. Such markets carry additional risks such as political instability, weaker auditing and financial reporting standards and generally less government supervision and regulation.

For a complete overview of all risks attached to this Fund, investors should refer to the Risk Factors section in both the Prospectus and the Supplement, which are available at www.findlaypark.com.
